

Notes-to-Microsoft migration solutions

ZeroIMPACT Notes email and application migrations

Organizations around the world are migrating from IBM Notes to Microsoft Office 365, Exchange and SharePoint for a variety of reasons, including:

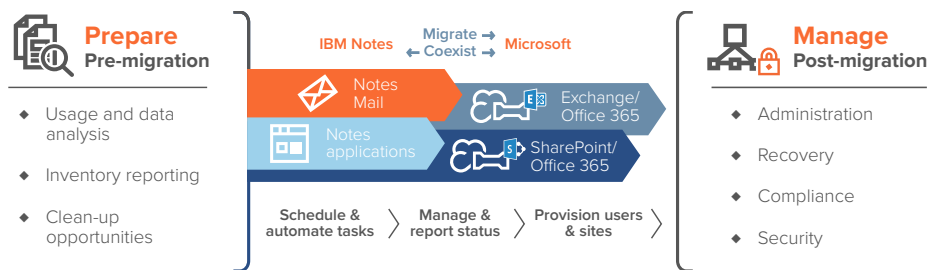

- Merger or acquisition
- Corporate initiative to move to the cloud
- Upcoming IBM renewal and/or end of product support
- IT resources with Notes expertise are scarce
- Better integration with other business systems

Quest® helps deliver a ZeroIMPACT Notes email and application migration to Office 365, Exchange and SharePoint. With Quest, you can slash costs by up to 60 percent and migrate three times faster with superior data fidelity. Easily perform pre-migration analysis to effectively

plan and mitigate risk, as well as ensure seamless coexistence to keep the migration from impacting end users.

TRUST QUEST TO SIMPLIFY YOUR IBM NOTES TRANSITION

Know, then go — Run a thorough pre-migration analysis of your Notes email and apps to reduce the risk, time and cost of your migration. Inventory all Notes users, mailboxes and applications in order to capture the exact information needed to plan a successful migration. Analyze historical size, usage and trends to identify areas for cleanup or archiving, and confirm what should and shouldn't be migrated to maximize project efficiency. You can then classify Notes applications by complexity to determine migration requirements and identify where development resources are needed.

Quest helps deliver a ZeroIMPACT Notes email and application migration to Office 365, Exchange and SharePoint.

“Migrator for Notes to Exchange and Coexistence Manager for Notes vastly reduced migration costs by automating so much of the process for us.”

Richard Cammish, Chief Information Officer, Coats Group plc

BENEFITS:

- Ensure a ZeroIMPACT migration for end users, the help desk and the bottom line
- Eliminate the risk of using custom scripting, limited native tools and unreliable third-party solutions
- Ensure that the migration is invisible to end users and maintains business operations during the transition
- Control migration costs and reduce Notes infrastructure more quickly
- Provide a comprehensive assessment of all Notes email and applications to gather the exact information needed to plan a successful migration
- Simplify the migration with reporting, scheduling and automation
- Is backed by an experienced vendor with a long track record, a vast partner ecosystem and award-winning, 24x7 global support

“Migrator for Notes to Exchange delivered the throughput we needed to complete the migration on time. We were getting only 11–15MB/hour per workstation with our first provider, but over 1GB/hour with each Migrator for Notes to Exchange workstation.”

Andrew Buker, Director of Technical Services, University of Nebraska Omaha

Complete control — Eliminate the risk of using custom scripting, limited native tools and unreliable third-party solutions by migrating email and both simple and complex applications with superior fidelity. Schedule and automate migration jobs to run when they least impact network bandwidth, such as at night or during the weekend. Monitor your project status from a central console, use templates to ensure consistent results and take action when needed with detailed result reports.

Seamless coexistence — Keep users working and productive throughout your migration with seamless coexistence between Notes and Exchange and Office 365. Synchronize directories and provide free/busy queries between Notes and Exchange to ensure that users continue to schedule meetings and collaborate. Maintain the fidelity of custom and recurring calendar invitations when sent between platforms.

Rapid ROI — Get the most value out of your new Microsoft environment with solutions that streamline administration for Active Directory, Exchange, Lync, SharePoint, Office 365 and more. Maintain compliance and IT governance, facilitate disaster recovery and automate time-consuming management tasks.

ABOUT QUEST

Quest helps our customers reduce tedious administration tasks so they can focus on the innovation necessary for their businesses to grow. Quest® solutions are scalable, affordable and simple-to-use, and they deliver unmatched efficiency and productivity. Combined with Quest’s invitation to the global community to be a part of its innovation, as well as our firm commitment to ensuring customer satisfaction, Quest will continue to accelerate the delivery of the most comprehensive solutions for Azure cloud management, SaaS, security, workforce mobility and data-driven insight.
