

Migration and Management Solutions for Microsoft® Exchange Server 2007

Quest Software® has migrated more than 15 million mailboxes to Exchange and continues this tradition with its commitment to securely and reliably migrate users over to the new Exchange Server 2007 platform. In addition to our excellence in migration, Quest leads in Exchange management solutions with managing over 10 million mailboxes—offering everything organizations need to manage storage, ensure availability and improve performance. Quest is the leader in the Exchange migration and management market providing comprehensive solutions for organizations that wish to optimally run their messaging platform.

Quest Software will help organizations migrate to Exchange Server 2007 from any major e-mail platforms and provide management solutions that maximize their investment in Exchange - before, during and after the migration.

Quest Software Exchange Server 2007 Support Matrix
