

Date: March 1, 2012

Product Name: Spotlight on DB2 for LUW (Referred as "SoDB2")

Product Version: 6.8.2

Contact for more information: <http://www.quest.com>

Summary table

Criteria	Supporting features	Remarks and explanations
Section 1194.21: Software Applications and Operating Systems	Supported with Exceptions.	Exceptions: sections (a), (c,i), and (j)
Section 1194.22: Web-based internet information and applications		SoDB2 is not considered a Web-based product.
Section 1194.23: Telecommunications Products		SoDB2 is not considered a telecommunications product.
Section 1194.24: Video and Multi-media Products		SoDB2 does not use multimedia.
Section 1194.25: Self-Contained, Closed Products		SoDB2 is not a self-contained, closed product.
Section 1194.26: Desktop and Portable Computers		SoDB2 is software as defined under section 1194.21.
Section 1194.31: Functional Performance Criteria	Supported with Exceptions.	Please refer to the related section in this document.
Section 1194.41: Information, Documentation and Support	Supported with Exceptions.	Please refer to the related section in this document.

Section 1194.21 Software applications and operating systems

Criteria	Supporting features	Remarks and explanations
(a) When software is designed to run on a system that has a keyboard, product functions shall be executable from a keyboard where the function itself or the result of performing a function can be discerned textually.	Not support.	Most areas of SoDB2 6.8.2 do not support keyboard navigation properly, and users cannot navigate / focus on them by keyboard.
(b.i) Applications shall not disrupt or disable activated features of other products that are identified as accessibility features, where those features are developed and documented according to industry standards.	Supported: SoDB2 6.8.2 supports most accessibility settings of other products and in no case disrupts or disables any of their accessibility features.	
(b.ii) Applications also shall not disrupt or disable activated features of any operating system that are identified as accessibility features where the application programming interface for those accessibility features has been documented by the manufacturer of the operating system and is available to the product developer.	Supported: SoDB2 6.8.2 supports most accessibility settings of the operating system and in no case disrupts or disables any accessibility features of the operating system.	
(c.i) A well-defined on-screen indication of the current focus shall be provided that moves among interactive interface elements as the input focus changes.	Supported with exceptions	No navigation or focus can be set for getting started page links on SoDB2. Drilldown buttons do not get focus
(c.ii) The focus shall be programmatically exposed so that Assistive Technology can track focus and focus changes.	Not tested.	Required hardware/software not available in our labs.
(d.i) Sufficient information about a user interface element including the identity, operation and state of the element shall be available to Assistive Technology.	Not tested.	Required hardware/software not available in our labs.
(d.ii) When an image represents a program element, the information conveyed by the image must also be available in text.	Supported.	
(e) When bitmap images are used to identify controls, status indicators, or other programmatic elements, the meaning assigned to those images shall be consistent throughout an application's performance.	Supported.	
(f) Textual information shall be provided through operating system functions for displaying text. The minimum information that shall be made available is text content, text input caret location, and text attributes.	Supported.	
(g) Applications shall not override user selected contrast and color selections and other individual display attributes.	Supported.	
(h) When animation is displayed, the information shall be displayable in at least one non-animated presentation mode at the option of the user.	Supported.	
(i) Color coding shall not be used as the only means of conveying information, indicating an action, prompting a response, or distinguishing a visual element.	Supported.	
(j) When a product permits a user to adjust color and contrast settings, a variety of color selections capable of producing a range of contrast levels shall be provided.	Not supported.	
(k) Software shall not use flashing or blinking text, objects, or other elements having a flash or blink frequency greater than 2 Hz and lower than 55 Hz.	Supported.	

Voluntary Product Accessibility

(1) When electronic forms are used, the form shall allow people using Assistive Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.	Not tested.	Required hardware/software not available in our labs.
--	-------------	---

Section 1194.31 Functional performance criteria

Criteria	Supporting features	Remarks and explanations
(a) At least one mode of operation and information retrieval that does not require user vision shall be provided, or support for Assistive Technology used by people who are blind or visually impaired shall be provided.	Not supported.	
(b) At least one mode of operation and information retrieval that does not require visual acuity greater than 20/70 shall be provided in audio and enlarged print output working together or independently, or support for Assistive Technology used by people who are visually impaired shall be provided.	Not supported.	
(c) At least one mode of operation and information retrieval that does not require user hearing shall be provided, or support for Assistive Technology used by people who are deaf or hard of hearing shall be provided	Supported	
(d) Where audio information is important for the use of a product, at least one mode of operation and information retrieval shall be provided in an enhanced auditory fashion, or support for assistive hearing devices shall be provided.	Not supported.	
(e) At least one mode of operation and information retrieval that does not require user speech shall be provided, or support for Assistive Technology used by people with disabilities shall be provided.	Supported	
(f) At least one mode of operation and information retrieval that does not require fine motor control or simultaneous actions and that is operable with limited reach and strength shall be provided.	Supported	

Section 1194.41 Information, Documentation and Support

Criteria	Supporting features	Remarks and explanations
(a) Product support documentation provided to end-users shall be made available in alternate formats upon request, at no additional charge	Not supported.	Online help is currently available in Microsoft HTML Help format and in PDF format upon request. Other product documentation is available in PDF format.
(b) End-users shall have access to a description of the accessibility and compatibility features of products in alternate formats or alternate methods upon request, at no additional charge.	Not supported.	
(c) Support services for products shall accommodate the communication needs of end-users with disabilities.	Not supported.
