- SQL - 64-bit support is only available if the SQL Server Instance is located on a remote server. If it is located on the console machine, 32-bit is only supported.
Target Servers - 64-bit target servers are supported. Windows Server 2008 target servers are supported.
Workstation Migration - Vista workstation migration is supported.
Console - Not supported on Windows Server 2008, Windows Vista, or 64-bit platforms due to limitations in the Novell client on those platforms.
- Refers to agents deployed to these environments. Does not apply to product installation.
- Supports SQL Server 2000 and SQL Server 2005. Supports remote installations of 64-bit SQL Servers.
- Support for Windows 2008 R2 will be provided when ChangeAuditor 5 is released (Q2), it's still TBD when the Plug-ins will support R2
