Applicable Standards/Guidelines

This report covers the degree of conformance for the **Web Content Accessibility Guidelines (WCAG) 2.0 Level AA**, at http://www.w3.org/TR/2008/REC-WCAG20-20081211/. The Revised Section 508 standards require conformance to the WCAG 2.0 Level AA.

Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports:** The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.

- **Supports with Exceptions:** Some functionality of the product does not meet the criterion.

- **Does Not Support:** The majority of product functionality does not meet the criterion.

- **Not Applicable:** The criterion is not relevant to the product.

Quest

WCAG 2.0 Report

Table 1: Success Criteria, Level A

Criteria	Conformance Level	Remarks and Explanations
1.1.1 Non-text Content (Level A)	Support	Product does not rely on non-text content to present options/commands in the forms
1.2.1 Audio-only and Video-only (Prerecorded) (Level A)	Not Applicable	Product does not include audio or video content
1.2.2 Captions (Prerecorded) (Level A)	Not Applicable	Product does not include audio or video
1.2.3 Audio Description or Media Alternative (Prerecorded) (Level A)	Not Applicable	Product does not use synchronized media.
1.3.1 Info and Relationships (Level A)	Supports	Product uses semantically correct naming so that information, structure, and relationships between groups/subgroups, tabs/subtabs can be understood independently
1.3.2 Meaningful Sequence (Level A)	Supports with Exceptions	Product has semantically correct tooltips to allow interpretation of the meaning of controls. **Note**: Some buttons do not have tooltips to additional explain it
1.3.3 Sensory Characteristics (Level A)	Supports with Exceptions	Product does not depend solely on sensory characteristics such as shape, size, visual location, orientation, or sound to understand content/control. **Note:** We use indentation in the view grid under the Options dialog to show dependency
1.4.1 Use of Color (Level A)	Supports	Color is only used as a decorative or supplemental attribute of user interface elements. A textual representation is

Quest

Criteria	Conformance Level	Remarks and Explanations
		always used as the primary mechanism for conveying information.
1.4.2 Audio Control (Level A)	Not Applicable	Product does not include audio that plays automatically.
2.1.1 Keyboard (Level A)	Supports	Product supports keyboard navigation and input functions (such as pressing [Tab] to move between input fields, pressing the arrow keys to move between list items, and pressing [Space] or [Enter] to make selections).
2.1.2 No Keyboard Trap (Level A)	Supports	Product supports keyboard navigation and ensures that keyboard users cannot be trapped in a subset of the options.
2.2.1 Timing Adjustable (Level A)	Not Applicable	Product is not time dependent. Product does not include time limits
2.2.2 Pause, Stop, Hide (Level A)	Supports with Exceptions	Product has a mechanism for the user to stop to check for auto-updating **Note**: Formatting feature cannot be paused or stopped
2.3.1 Three Flashes or Below Threshold (Level A)	Not Applicable	Product does not use flashing elements.
2.4.1 Bypass Blocks (Level A)	Not Applicable	Product does not include sections of content that are repeated on multiple forms/dialogs. This criterion does not apply to non-web software
2.4.2 Page Titled (Level A)	Supports	Product has descriptive titles that indicate the topic or purpose of each tab/form/dialog
2.4.3 Focus Order (Level A)	Supports	Product uses a logical tab order through interactive elements such as tabs and form controls. Product uses semantically correct titles (names), ensuring that the title matches the visual presentation of content on the form/dialog.

Quest

Criteria	Conformance Level	Remarks and Explanations
2.4.4 Link Purpose (In Context) (Level A)	Support	Product uses descriptive text to identify the purpose of links
3.1.1 Language of Page (Level A)	Does Not Support	The default human language of each form/dialog is English and can not be changed
3.2.1 On Focus (Level A)	Supports	When a tab/option on the form/dialog receives focus, it does not initiate a change of context
3.2.2 On Input (Level A)	Supports	Changing the setting of the options in the Product does not automatically cause a change of context
3.3.1 Error Identification (Level A)	Supports	Product uses message dialog boxes with text and different icons in it to show a type of the error
3.3.2 Labels or Instructions (Level A)	Supports with Exceptions	Product provides additional information/tooltip to explain options/commands **Note**: Some buttons do not have tooltips to additional explain it
4.1.1 Parsing (Level A)	Supports	The software itself is not implemented using markup languages

The Export option in the product uses semantically correct markup for all elements. The markup is programmatically generated to prevent parsing errors |
| **4.1.2 Name, Role, Value** (Level A) | Supports | Providing role, state, and value information on all product components enables compatibility with assistive technology, such as screen readers |

Quest

Table 2: Success Criteria, Level AA

Criteria	Conformance Level	Remarks and Explanations
1.2.4 Captions (Live) (Level AA)	Not Applicable	Product does not use synchronized media
1.2.5 Audio Description (Prerecorded) (Level AA)	Not Applicable	Product does not use synchronized media
1.4.3 Contrast (Minimum) (Level AA)	Supports	The visual presentation (background) of text for all options/elements in product provides sufficient contrast.
1.4.4 Resize text (Level AA)	Supports with Exceptions	The text / labels under the main menu and the main menu itself can inherit text resize from a host, but the text / labels under the Options dialog can have difficulty in displaying
1.4.5 Images of Text (Level AA)	Not Applicable	Product does not use images of text. The product uses text instead of images of text
2.4.5 Multiple Ways (Level AA)	Not Applicable	This criterion does not apply to non-web software.
2.4.6 Headings and Labels (Level AA)	Supports	Headings and labels are clear and descriptive, so specific components can be easily identified within the content
2.4.7 Focus Visible (Level AA)	Supports	Product uses visual changes to elements to indicate the current position of focus
3.1.2 Language of Parts (Level AA)	Does Not Support	There is no mechanism to specify different languages for subsets of a form. Content is only presented in one language – English
3.2.3 Consistent Navigation (Level AA)	Not Applicable	This criterion does not apply to non-web software.
3.2.4 Consistent Identification (Level AA)	Not Applicable	This criterion does not apply to non-web software.

Quest

Criteria	Conformance Level	Remarks and Explanations
3.3.3 Error Suggestion (Level AA)	Supports with Exceptions	Product provides suggestions for correcting errors such as info dialogs with information about how to fix them **Note**: Some dialogs may contain information about error without providing specific suggestion for correction.
3.3.4 Error Prevention (Legal, Financial, Data) (Level AA)	Not Applicable	Product does not contain any legal or financial decisions for an end user to make
