

Enterprise Reporter Remote Expert Assist Basic

Description

The Enterprise Reporter Remote Expert Assist Basic Services Offering consists of one (1) prepaid four-hour Day during which Dell will provide remote services to assist Customer with the installation, configuration, and knowledge of maintaining your Active Directory Environment, Windows Servers, and SQL Servers, of the Enterprise Reporter Software (the "Activities").

This remote service offering includes the following:

- Installation guidance and assistance of the Enterprise Reporter Software
- Configuration of the Enterprise Reporter Components and Services
- Knowledge Transfer on the Enterprise Reporter product and configured Components and Services in the customer's deployment environment

Activities

A Dell Professional Services consultant will work with the necessary customer stakeholders and subject matter experts on the following activities. The actual activities performed will vary based on the complexity of the customer's environment and technical needs outlined during the Planning Session and are contingent upon the time available.

Planning

Dell will host a planning session with the customer to verify environment readiness and establish the base deployment architecture.

- Finalize logistics including scheduling, remote access requirements and web conferencing needs
- Determine Base Deployment Architecture for Enterprise Reporter
- Verify environment preparedness

Installation

Dell will provide assistance to the customer to install Enterprise Reporter Components and Services on Designated Server(s) in accordance with the deployment architecture defined during the planning session.

- Enterprise Reporter Server
- Configuration Manager
- Report Manager
- Database Wizard
- Knowledge Portal

Configuration

Dell will provide assistance to the customer with configuring the Enterprise Reporter Components and Services on the Designated Server(s) in accordance with the deployment architecture identified during the planning session.

- Dell will provide assistance to the customer with built-in reports
- Dell will provide assistance to the customer with setting up Scheduled reports
- Dell will provide assistance to the customer with creating and defining custom reports
- Dell will provide assistance to the customer with setting up Dell Knowledge Portal (requires SQL Reporting Services)

Knowledge Transfer

Dell will provide guidance to the customer by performing a knowledge transfer and product overview of the Enterprise Reporter Components and Services implemented into the Customer's Environment during the course of the engagement.

- Dell will provide assistance to the customer with verifying the Enterprise Reporter implementation
- Validate License
- Introduce Support resources

Services Effort

	Number of Forests	Number of Domains	Data Collections	Reports
Enterprise Reporter Basic (4 Hours)	1	1	Up to 2	Up to 2

Prerequisites and Assumptions

Customer agrees to cooperate with Dell in its delivery of the Services. Customer agrees to the following responsibilities

- Ensure that the existing infrastructure and hardware configuration of their environment is sufficient to support the products to be implemented.
- Commit a technical resource on a full time basis to provide Dell with the assistance required.
- Provide project team members with suitable business expertise, technical expertise, and decision-making authority to ensure efficient project progress.
- Customer will secure and prepare the necessary hardware and pre-requisites, as listed in the System Requirements (Product Installation/QuickStart Guide) prior to the Remote session.
- All activities will be performed remotely utilizing Dell provided web and voice conferencing.
- Dell Product Support will NOT address the excluded items (as described above), as those services may only be addressed by Professional Services.
- Some activities may be performed during a "pre call" that could be required prior to the beginning of the scheduled engagement.
