This hotfix includes the changes outlined in the following sections. Dell may generate additional hotfixes for future releases of the product.

Topics:

- Resolved issues
- New target support
- Applicability of this hotfix
- Installing this hotfix
- Removing this hotfix
- About Dell

Resolved issues

The following is a list of issues resolved in this hotfix.

Table 1. Issues resolved in this hotfix

Resolved Issue	Issue ID
Slow server not processing heartbeats fast enough causing faulted nodes	77
Collection groups in AD discovery causing error: "Server does not support the control. The control is critical."	78
On Server restart, if server was in the process of dispatching a task, it will be re-dispatched, and we may get error in node log and cause tasks to get stuck processing	79
AD Browser does not enumerate all computers in a container.	159
Data inconsistency between 'Report' and 'Export to CSV' options for the report 'Domain Groups and Members'	175
Seeing NULL values in custom query pulling data from Local Computer Account table	347
Parameter Types and Parameter Names to be fixed for Custom Query Reports for File Storage Analysis	456
Group members from different Domain within same forest are not resolved.	493
Reports are blank if a report from the report library has their layout set to autogenerate	510
Object counts causing too many queries	563

ER can't publish Domain Groups and Members report to Dell Knowledge Portal	673
Some Active Directory Computer reports return no results	681
Active Directory Account Lockout Duration not being reported correctly	2059
Local group members are not stored in DB during Recursive Group Membership collection	2082

New target support for File Storage Analysis discoveries

Support for FluidFS 4.0 has been removed for File Storage Analysis discoveries. The supported version of Fluid FS for File Storage Analysis is as follows:

- FluidFS 5.0.002821

Applicability of this hotfix

Table 5. Products affected by this hotfix

Product Name	Version	Platform
Enterprise Reporter – Server	2.0 – 2.6.0	All platforms
Enterprise Reporter – Node	2.0 – 2.6.0	All platforms
Enterprise Reporter – Console	2.0 – 2.6.0	All platforms

Installing this hotfix

To install the hotfix:

1. Ensure there are no discoveries running.
2. Disable and stop all running nodes.
3. Run the hotfix installer to upgrade the server.
4. Open the Configuration Manager and any nodes that need to be upgraded will be displayed with Incompatible Version.
5. Upgrade all nodes from the Configuration Manager. For nodes that were deployed manually, you will need to manually upgrade them.
6. For machines that you only have the Configuration Manager and Report Manager installed, run the hotfix installer to have them upgraded.

ⓘ NOTE: If you encounter any issues upgrading on 32 bit computers, contact Customer Support and refer to solution article 178180.

Removing this hotfix

Removing this hotfix will uninstall the product.

About Dell

Dell listens to customers and delivers worldwide innovative technology, business solutions and services they trust and value. For more information, visit http://www.software.dell.com.

Contacting Dell

For sales or other inquiries, visit http://software.dell.com/company/contact-us.aspx or call 1-949-754-8000.

Technical support resources

Technical support is available to customers who have purchased Dell software with a valid maintenance contract and to customers who have trial versions. To access the Support Portal, go to http://support.software.dell.com.

The Support Portal provides self-help tools you can use to solve problems quickly and independently, 24 hours a day, 365 days a year. In addition, the Support Portal provides direct access to product support engineers through an online Service Request system.

The Support Portal enables you to:

- Create, update, and manage Service Requests (cases).
- View Knowledge Base articles.
- Obtain product notifications.
- Download software. For trial software, go to http://software.dell.com/trials.
- View how-to videos.
- Engage in community discussions.
- Chat with a support engineer.
