

Migration-as-a-Service

Get a head start on your migration

No matter the size of your organization, migrations can be time-consuming, costly, and daunting. Choosing a new platform is just the tip of the iceberg. Then you need to spend significant time planning the best way to migrate your sensitive and critical user data. This includes everything from mailboxes and calendars to contacts and shared files. And once you get going, it's all too common for a migration to overrun its budget and timeline or—worse—disrupt users.

Now, there's a better way. Sit back and relax with Quest Migration-as-a-Service (MaaS). This is a low-stress, full-service approach to migrations. You can stay focused on your core business while seasoned experts handle your migration from end to end. Our team of migration experts can migrate it all—mail, calendar, tasks, groups, files, and other data.

Migration-as-a-Service is available for any migrations that involve IBM/Lotus Notes/Domino/SmartCloud, SharePoint, Exchange, and even Office 365. You get the expertise of a reliable, trusted partner to deliver an efficient, successful, and low-stress migration.

VALUE FROM EXPERTS

Migrations can be stressful and daunting for any organization. Benefit from our expertise to implement best practices in technology migrations.

A FULL SERVICE APPROACH

Sit back and relax with Migration-as-a-Service. We'll complete your migration for you with care and professionalism. This frees up your key team members who would be otherwise mired in tedious migration tasks.

PARTNERSHIP

Our experts work closely with you to do an effective and beneficial migration. It's a true partnership, so we work diligently to address any concerns, questions, and needs to make your transformation experience the best it can be.

CUSTOMIZED MIGRATION

All migrations are unique. So, we start with thorough discovery and investigation. We make sure that all your objects are handled with care. And we meet all of your migration needs, no matter how complex.

FULL-SERVICE MIGRATION

- Partner with experts who help you tackle every migration task
- Execute an efficient, effective migration
- Migrate Notes, Exchange, SharePoint, and even Office 365
- Migrate all critical objects

A TAILORED APPROACH

- Benefit from thorough discovery of your initial environment
- Develop predictable timelines that fit your priorities
- Minimize disruption to end users
- Get regular status reports for continual insight and awareness
