

Solve Enterprise Content Management Challenges Like a **Genius**.

Metalogix's next generation of intelligent tools accelerate and streamline migration, management, and security for Office 365, SharePoint, Google Drive, Box, and more. Our solutions encapsulate industry best practices, enabling you to execute today's most complex and strategic collaboration priorities—whether your platform is on-premises, in the cloud, or in a hybrid environment.

Bringing Intelligence to the Cloud

Plan

Analyze your environment to maximize productivity and minimize risk.

Migrate

Move content on-premises, in the cloud, or in a hybrid environment.

Manage

Streamline control to manage content and optimize storage and performance.

Protect

Secure sensitive content and execute a governance strategy.

Metalogix Can Help You Collaborate on Your Own Terms.

Plan

Metalogix Expert

Harness insights to help guide your migration, optimize storage infrastructure, and protect content against security risk.

Migrate

Content Matrix

Use the industry's most powerful migration solution.

Essentials for Office 365

Use the complete solution for both pre-migration analysis and migration.

ControlPoint

Enable a smooth migration with pre-migration cleanup of sites, content, and permissions.

Manage

Essentials for Office 365

Manage users, content, and licenses on Office 365.

ControlPoint

Secure, administer, and govern your SharePoint environment.

StoragePoint

Optimize SharePoint storage with the industry's leading remote blob storage (RBS) solution.

Backup for SharePoint

Backup, read and restore old, lost, corrupted, and overwritten SharePoint content directly from database backups.

Protect

ControlPoint

Secure and govern sensitive content against data breaches and suspicious user behavior.

Sensitive Content Manager

Scan, detect and classify sensitive content on-premises or in the cloud.
