

## DATASHEET

# Security Guardian Audit

Modern cloud auditing to simplify compliance and secure hybrid AD

Security Guardian Audit is a cloud-native auditing and compliance solution that brings the core capabilities of Change Auditor into the cloud. It provides the in-depth auditing, reporting and monitoring needed for today's regulatory compliance requirements, delivered with faster performance, simplified deployment and long-term data retention — without the need for on-prem SQL databases. Whether you're facing regulatory pressure or simply want more control over user activity, Security Guardian Audit makes it easy to stay ahead.

## Why make the move from Change Auditor to Security Guardian Audit?

Transitioning to Security Guardian Audit ensures you stay ahead of the curve with the latest advancements in auditing technology. This cloud-native solution delivers all the core capabilities of Change Auditor, including clear auditing insights, object protection and deep visibility that you simply can't get with other tools. In addition, you get all of the following benefits:

- **Intuitive user interface** — Both new and experienced team members can easily realize the full potential of Security Guardian Audit.
- **Reduced IT overhead** — Security Guardian Audit uses a lightweight event broker to transfer data to the Quest cloud, eliminating the need to maintain an on-premises SQL database.

## Benefits

- Gain visibility into AD, Entra ID, M365 workloads and logon activity from a single interface
- Deliver insights to both new and experienced IT and compliance staff
- Improve audit speed, scalability and reliability across large environments
- Eliminate on-prem SQL overhead with cloud-native architecture
- Retain audit data up to 10 years to meet compliance requirements
- Enjoy peace of mind with an ISO-certified solution

- **Enhanced performance, even with huge datasets** — Experience faster access, instant scalability and high reliability with a cloud infrastructure designed to smoothly handle large volumes of data.
- **Comprehensive auditing** — Ensure deep visibility into both directory changes and authentication events with the combined functionality of Change Auditor for Active Directory and Change Auditor for Logon Activity.
- **Simplified management** — Easily deploy agents, set audit properties and manage protection settings.
- **Long-term storage** — Security Guardian Audit stores audit history for up to 10 years at a fixed subscription price, helping you meet compliance policies without increasing your own Azure storage costs.

## Part of a unified platform: Quest Security Guardian

Security Guardian Audit is one part of the Quest Security Guardian platform — a comprehensive, GenAI-powered identity security solution for hybrid Active Directory and Entra ID environments. While Security Guardian Audit provides deep visibility and long-term compliance readiness, the full Security Guardian platform goes further to:

- **Reduce your AD attack surface** by exposing misconfigurations, privilege sprawl and Tier 0 vulnerabilities.
- **Detect identity-based threats** in real time using AI-powered behavioral analytics

[Learn more about Security Guardian](#)

[Contact us to get started](#)

- **Protect critical assets** like GPOs with in-memory controls that block attacker movement mid-flight, with the Shields Up functionality

Together, these capabilities help organizations defend against today's identity attacks, which now exceed 600 million per day, with the speed, visibility and security that modern threats demand.

“Security Guardian is the best tool we could find available for identity threat hunting in Active Directory.”

CISO, Large Media Company

Quest Security Guardian Audit is included in the scope of the Platform Management ISO/IEC 27001, ISO/IEC 27017, and ISO/IEC 27018 certifications.

### About Quest Software

Quest Software creates technology and solutions that build the foundation for enterprise AI. Focused on data management and governance, cybersecurity and platform modernization, Quest helps organizations address their most pressing challenges and make the promise of AI a reality. Around the globe, more than 45,000 companies including over 90% of the Fortune 500 count on Quest Software. For more information, visit [www.quest.com](https://www.quest.com) or follow Quest Software on [X \(formerly Twitter\)](#) and [LinkedIn](#).
