Common Challenges

1. Identification of Teams usage and sizing for migration planning
2. Migration of 3rd party applications and data
3. Identification and migration of additional and custom SharePoint Site modifications and content
4. API Limits
5. Archived / Deleted Teams
6. Custom Team templates

Migration Coping Tactics

1. Review Teams analytics & reports
2. Limit members ability to add apps and bots
3. Inventory associated SharePoint Site Content
4. Staged vs Cutover
5. Turn off old usage
6. Priority order/limit the migration window

Issues

1. Throttling/Slowness
2. Lack of Migration APIs
3. Challenges with staged migrations
4. Challenges with cutover migrations

Migration Requirements

- Auto-Discovery of Teams/Groups
- Limit Discovery of Teams/Groups for Divestments
- Provisioning New Teams/Channels & Merging to Existing Teams/Channels
- Incremental Syncs
- Public & Private Channels & Conversations
- Private 1on1, Group & Meeting Chat
- Membership/Ownership
- Teams Client Re-Configuration

Three Things You Can Do Today!

1. Backup, Disable, Archive or Remove Teams with no activity
2. Stop making the problem worse! No New Teams!
3. Set Team expiration and renewal policy to determine if Teams are required for migration
