

# Toad® for Oracle

Find the edition that's right for you.

No matter what your skill or experience level, there's an edition of the Toad® for Oracle database management toolset that will help you easily complete your work with increased speed and accuracy. With Toad, you can perform essential database development and administration tasks from a single, intuitive toolset. The Toad solution makes it fast and easy to generate queries and reports, perform SQL development and optimization, detect and diagnose database problems, automate administration tasks and more.

We offer five editions of Toad for Oracle: Base, Professional, Xpert, Developer and DBA. This allows you to get the best tools for your specific business needs.

**Toad for Oracle Base Edition** — Provides time-saving functionality to help you create and maintain PL/SQL code. It offers many features for both developers and DBAs, including a free version of Toad Data Modeler, which helps you easily deploy accurate changes to data structures across more than 20 different platforms.

**Toad for Oracle Professional Edition** — Includes all the functionality in the Base Edition, plus it helps developers improve code quality with additional components to perform code reviews and analysis and generate test data.

**Toad for Oracle Xpert Edition** — Includes all the components in Professional, plus SQL Optimizer for Oracle, which detects and analyzes problematic SQL statements and automates tuning for improved application performance.

**Toad for Oracle Developer Edition**— Provides a complete team development environment with everything in the Xpert Edition, plus automated PL/SQL code testing and database performance testing with workload replay and scalability testing. Also, integrates with Toad Intelligence Central supporting Agile and DevOps processes.

**Toad for Oracle DBA Edition** — Offers a comprehensive toolset to simplify complex administration tasks and predict, diagnose and resolve performance issues. Available for Oracle (RAC and

Exadata), the DBA Edition includes everything in the Xpert Edition, plus the DB Admin module, Spotlight® for performance diagnostics and Benchmark Factory® for scalability testing.

## ABOUT QUEST

Quest helps our customers reduce tedious administration tasks so they can focus on the innovation necessary for their businesses to grow. Quest® solutions are scalable, affordable and simple-to-use, and they deliver unmatched efficiency and productivity. Combined with Quest's invitation to the global community to be a part of its innovation, as well as our firm commitment to ensuring customer satisfaction, Quest will continue to accelerate the delivery of the most comprehensive solutions for Azure cloud management, SaaS, security, workforce mobility and data-driven insight.
